WHY COME:

It is a unique international conference of its kind. Top professionals dealing with communication disorder - stuttering, not only from the Czech Republic, but also from abroad, take part at this conference. Participants who work in social services, will certainly be interested in varied program and performances dedicated to social issues for people with fluency disorders.

> **You will learn** to work with elements of collective therapy for people with fluency disorders, especially in the field of drama and music therapy. Furthermore, you learn act and work not only with person affected by communication disorders, but also with his/her family, which also needs attention and care.

> **You will see** the world's leading experts in working with stuttering people. Practical examples of work, including theory and research-based results. Postgraduate students of prof. David Shapiro in working with people who stutter.

> **You will meet** a lot of new and interesting people, including lecturers themselves. Establish new professional relationships and exchange your knowledge and experience.

WHO SHOULD COME:

Conference and follow-up program is intended primarily for doctors, clinical speech therapists, clinical speech pathologists, clinical psychologists, health professionals, social workers, persons with communication disorders and their families, special education students and students of social studies.

Personality of symposium

David A. Shapiro, Ph.D., CCC-SLP, ASHA Fellow, is Professor of Communication Sciences and Disorders at Western Carolina University in Cullowhee, North Carolina, USA. In his third decade of providing clinical services for people who stutter and their families, Dr. Shapiro is

a regular presenter at national and international conferences and has conducted workshops in North America, Europe, Asia, Australia, and Africa. He is one of the most famous experts in stuttering in the world. Prof. Shapiro is actively involved in the International Fluency Association (IFA) and International Stuttering Association (ISA).

Meet Mr. Shapiro is a unique experience. I am very happy that this year he decided to visit the Czech Republic. Any expert should not miss the chance to experience the greatest speech therapist of our time.
